

Patient Experience: Patient Portal

The *Patient Portal* is an easy way for patients to view their health record online. Patients can review their problems, allergies, medications, eLab results, vitals, shared treatment plans, and make an online payment. They can also message their providers and authorize access for a guest to view their account.

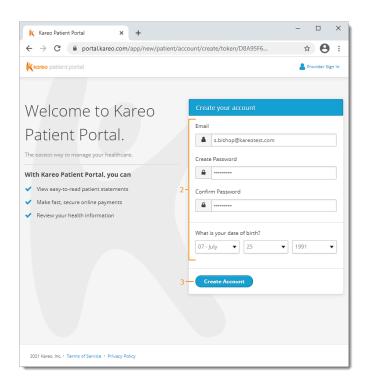

After the practice <u>invites the patient</u> to the *Patient Portal,* the patient receives an email invitation to activate their account.

 In the email invitation, the patient clicks Get Started. The <u>Patient Portal</u> create account page opens.

- The patient creates a *Password* and enters their *Date of Birth*. Note: The *Email* is auto-populated from the email invitation.
- 3. Patient clicks **Create Account**. The account is created and the <u>Patient Portal dashboard</u> opens.
